Saskatchewan Colleges is a partnership between four colleges in the province of Saskatchewan. Each college is its own separate entity but the four institutions partner for the purposes of international recruitment and admissions.

International student admissions will be administered through Saskatchewan Colleges, but all applications and acceptance documents will be issued from the specific designated learning institution that students apply to.

Check out [www.saskcolleges.ca](http://www.saskcolleges.ca) — the Saskatchewan Colleges website which includes information about each of the four colleges. The Saskatchewan Colleges website also provides access to information about our programs and intakes for the 2025-26 year. Finally, the website provides access to our application portal, allowing you to apply to programs across all four of the Saskatchewan Colleges.

# Job Readiness

Saskatchewan Regional Colleges have a strong focus on preparation for the work force. Embedded in each program are opportunities to develop skills such as critical thinking, problem solving, team work and many other job related "soft skills."

Students are supported in creating a resume and cover letter that are a good representation of what they can offer to future employers. Further to this, students can gain access to information about the interview process or receive coaching on interview skills to prepare them to effectively take on any interview.

Employers often comment on the fact that graduates of Saskatchewan's Regional Colleges are not only prepared for the work force, but quickly become valued employees based on the skills and abilities gained in their Regional College program.
